SUMMARY

Technical Manager, Data Scientist with **over 12 years** of experience in oil and gas industry. My best strengths as an engineer are analytical thinking and **excellent mathematical and programming skills** (including calculus) that allow me to solve almost any **problem** quickly master new **technology**.

EXPERIENCE

2019-04 - **Technical Sales Manager**

Present *Baker Hughes Ukraine, Kyiv, Ukraine*

- Work closely with the Clients and plan to perform best services delivery possible.
- Responsible for scaling and growing the Baker Hughes business in Ukraine.
- Research the current demand to identify potential sales and projects.
- Supervise and coordinate local team to insure all the operations are covered, and the Client received the best services.
- Provide all relevant documentation; prepare and present TP.
- Analyze the drilling data using statistics and Machine Learning to develop and build the best product.

2013-07 - **Data Engineer**

2019-01 *Schlumberger Company, KhMAD*

- Provide safely, efficiency and successfully building wells by basing on drilling recordings.
- Monitor and evaluate all data, gas levels, lag time and drilling parameters, and report any anomalies. Design lithology logs.
- Provide all reports or documents based on geological explorations, drilling data and well operations.
- Alize drilling data to indetify risks and disfunctions and optimize drilling perfomance.

EDUCATION

2006-09 - Ivano-Frankivsk National Technical University of Oil and Gas, department of geological survey – MD in geophysics
2011-06

2012-09 - Ivano-Frankivsk National Technical University of Oil and Gas, department of engineering surveying – MD in geodesy
2014-06

RECENT PROJECTS

Wind Energy Estimation
Drilling Optimization
